

# Material Safety Data Sheet

## DuoPly EPDM Walkway Pads

To: Industry Professionals or whom it may concern

Thank you for your inquiry regarding an MSDS for DuoPly EPDM Sheeting and accessory products. The following list of DuoPly products are considered to be an "Article" as under normal conditions of use they do not pose a hazard in the work place or to the building occupants. Since these products or "Articles" pose no health hazard under normal conditions of use there is no requirement for an MSDS.

For technical information on each of these products please refer to the Technical Data Bulletin (TDB) published on the DuoPly website at [www.duoply.co.uk](http://www.duoply.co.uk)

Articles as defined:

EPDM membranes

EPDM flashings

EPDM walkway pads

Background Information:

"Article" means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which does not release, or otherwise result in exposure to, a hazardous chemical under normal conditions of use.

A product or "Article" meeting this criterion is exempt from the MSDS requirement. We realise that manufacturers often provide MSDSs for reasons other than those of meeting the requirements of the Hazard Communication Standard and that this can cause confusion to downstream users. Flex-R's intent is to eliminate confusion by publishing MSDS sheets for the products that workers and end-users really need to operate in a safe environment.

Flex-R Ltd. believes the information contained herein to be very accurate. It is not to be taken as a warranty or representation for which Flex-R Ltd. assumes any legal responsibility for product liability. This information is offered solely for our customers' consideration, investigation and any necessary verification. Any use of this information or of the sheeting and accessories provided by Flex-R Ltd. must be determined by the user to be acceptable for their intended purpose and in accordance with the appropriate government or local laws and regulations.
